Driven by Dedication*

SPECIALIZING IN PROCESS CONTROL SOLUTIONS

With an extensive background in measurement and controls, our products have been carefully chosen to complement each other and range from the field proven to the newest technologies. We have been a major stocking distributor and manufacturer's representative of Instrumentation and Control products to the Oil & Gas, Petrochemical, Water & Waste Water, Forestry, Mining, Agriculture and Food Processing Industries, since 1964.

Our Manufacturing Partners are recognized as world leaders in their respective fields of gas measurement and control. Their ongoing commitment to research and development have had a dramatic effect on our client base which now extends well beyond the Western Provinces and throughout North America.
