

INSTRUMENT & SWITCH SHROUD

JOB SITE SAFETY IS A TOP PRIORITY. PROTECT YOUR ASSETS.

Accidental ESD Deployment can be costly. The alternative can be deadly! Safeguard your resources by installing Pembina's innovative Instrument and Switch Shroud.

- ① Gable Style "Birdhouse" design sheds snow, ice and rain away from the device preventing debris buildup and accidental tripping
- ① Galvanized Steel Housing resists corrosion
- ① Maintenance Free Powder Coated finish is visible, long-lasting and durable
- ① Threaded Mounting Pems provides easy, consistent assembly for most control stations
- ① Vertical slots allow for mounting flexibility
- ① Lexon cover prevents accidental deployment and inhibits snow, ice and dirt buildup when cover in place (Switch Shroud only)
- ① Bottom access for manual reset maintains weather protection (Switch Shroud only)
- ① Custom sizes available made to order

ENGINEERED PROTECTION OF CRITICAL PROCESS CONTROL DEVICES

Shroud installation has often been an afterthought resulting in unsatisfactory protection from harsh and/or hazardous conditions. Pembina's Instrument & Switch Shroud assembly features an Integral Design that wraps the device 360 degrees for increased Safety and Protection.

310 SERIES Instrument & Switch Shroud Parts Sheet:

PART NUMBER: 310 - 100 - XX - XX - 01

Construction / Material

100 - Galvanized Steel

Gang Type

- 01 - ESD Shroud c/w Lexan Cover
- 02 - Dual Gang - no Lexan Cover
- 03 - Single Instrument c/w Lexan Cover
- 04 - ESD Shroud c/w Hinged Cover
- 05 - Oversized Single Instrument - no Lexan Cover
- 06 - BMS Shroud - no Lexan Cover
- 07 - Single Instrument - Lexan Cover & Pems
- 08 - Oversized Single Instrument c/w Lexan Cover

Shroud Color

- 01 - Red
- 02 - Black
- 03 - Yellow
- 04 - Grey
- 06 - Blue

Pushbutton Requirement

- 01 - No Pushbutton
