

Preso offers a **custom engineered** solution **specifically manufactured** to fit within your system, providing a reliable long-term solution for fluid, steam or gas applications.

Shared Design Characteristics:

- All DP meters can be employed for compensated mass flow with the addition of temperature and static pressure measurement.
- No moving parts.
- Accuracies that rival the turbine meter.
- Minimal maintenance.
- Temp & Pressure options galore.
- Service ranges from vacuum to many thousands of PSI.
- Flexible materials of construction for best fit solution.
- Unmatched reliability. Fixed geometry will last for years.

Badger Meter has been manufacturing these meters for over 50 years.

Styles include: Venturi, Cone, Wedge, Averaging pitot.

Control. Manage. Optimize.

Still have questions? Pembina Controls has been partnered with Badger meter for over 25 years. Our knowledge and expertise is trusted industry wide. We carry stock on all standard sizes in both calibrated and non-calibrated for prompt off the shelf delivery.

We understand you have a choice where you send your business.

When you choose Pembina Controls and our manufacturing partners, our goal is to ensure you are so impressed with our products and service, that you are confident in recommending us to you colleagues, clients and friends.
