## APPLICATION: LEVEL

---

Level measurement is of critical importance within the industrial process industry. Levels that are too high, too low, or inaccurate can lead to safety issues, downtime, inefficient process, and more.

At **Pembina Controls Inc.** our diverse **LEVEL** measurement and control products are designed to perform reliably in a wide range of applications and in the most challenging environments.

### LEVEL SOLUTIONS:

- » Electric Control Switches
- » Pneumatic Level Controls
- » Float Actuated & Paddle Indicators
- » Tank Gauges
- » Radar & Guided Radar
- » Capacitive
- » Ultrasonic
- » Hydrostatic
- » Pressure & Differential transmitters
- And more...

Our **LEVEL** instrumentation product suite provides a solution for the simplest requirements (ie. switching) to remote access via modbus, cellular, or satellite (IoT.)

**Allowing you access to your level data wherever you may be.**

## APPLICATIONS:

- » Production Separators
- » Heaters/Treaters
- » Scrubbers
- » Dehy's
- » Liquid Accumulators & Process Vessels
- » Blow Cases
- » Tanks
- » Production Facilities
- » ISO Tank Systems
- » Fuel Monitoring
- » Single well batteries
- » Rail Transport Cars
- » Truck Tankers
- » Irrigation
- » Water & Wastewater
- And More...

***Our level instrumentation has been curated to deliver precise measurement and control technology for a wide range of applications. For more information, please visit [Pem-Controls.com](http://Pem-Controls.com) or contact us at [sales@pem-controls.com](mailto:sales@pem-controls.com)***

***We understand you have a choice where you send your business.***

*When you choose Pembina Controls and our manufacturing partners, our goal is to ensure you are so impressed with our products and service, that you are confident in recommending us to you colleagues, clients and friends.*
