

APPLICATION: WATER

Humans not only consume but utilize vast quantities of water and create an increasing amount of wastewater. This places greater emphasis on **environmentally responsible** water treatment and leveraging reclaimed resources.

Tighter **environmental** regulations also mean water discharges produced at **oil and gas** facilities can no longer simply be regarded as a waste stream. Both the quality and quantity of these streams must be monitored.

Here at **Pembina Controls Inc.** we and our manufacturing partners, understand that **you cannot manage what you do not measure.** Whether it be an industrial application, water & wastewater management, HVAC, or irrigation...

We've got you covered.

Measurement Solutions:

Smart Metering Analytics

Electromagnetic Flow Meters

Ultrasonic Flow Meters Nutating

Disc Meters

Impeller Meters

Vortex Meters

Turbine Meters

Oval Gear Meters

Variable Area Flow Meters

Differential Pressure Flow Meters

Variable Area Flow Meters

Differential Pressure Flow Meters

Open Channel Flow Meters

WATER & WASTEWATER MEASUREMENT:

MODMAG Electromagnetic Flow Meter RECORDALL Disc Series Meter DYNASONICS Ultrasonic Flow Meter Nutating Disc Flow Meters VISION Flow Meters

Open Channel Flow Meters

Non-Metallic Diaphragm Seal & Pressure Transmitter/Switch Cage-protected Submersible Level Transmitters Distribution Manifold Assembly

Pressure Gauges

Pressure Transmitters/Switch & Transducers Industrial RTDs

Temperature Transmitter/Switch Radar Level Sensors

Pressure Sensors

- Process
- Hydorstatic
- Differential

and more...

APPLICATIONS:

Water Consumption Metering Influent & Effluent Monitoring Discharge Quantity Monitoring Chemical Treatment Dosing Municipal Network Load Monitoring Water System Sub Metering Ground Water Consumption

Well Stations
Aeration
Clarification/flocculation
Dosing
Groundwater Consumption
Back Wash
Storm Canals
And more...

Well Water
Treatment Plants
Pump Stations
Distribution
Lift Stations
Reclaimed Water
Discharge Chemical
Injection

HVAC:

MODMAG - Electromagnetic Flow Meter Impeller Meters

Dynasonics - Ultrasonic Flow Meter Vortex Meters and more...

APPLICATIONS:

Cooling Tower Blowdown Chilled Water (Cooling Systems) Glycol/Hot Water (Heating) Make-up Water Condenser Water Condensate Boiler Feed/Return Cost Allocation/Sub-Metering

OIL & GAS WATER MEASUREMENT:

MODMAG - Electromagnetic Flow Meters

BLANCETT - Turbine Flow Meters DYNASONICS-

Ultrasonic Flow Meters CORIOLIS

PRESO Differential Pressure Flow Meters HEDLAND

Variable Area Flow Meters

Oval Gear Meters

Cage-protected Submersible Level Transmitters

Distribution Manifold Assembly

Pressure Gauges

Pressure Transmitters/Switch & Transducers

Industrial RTDs

Temperature Transmitter/Switch

Radar Level Sensors

Pressure Sensors

- Process
- Hydorstatic
- Differential

and more...

APPLICATIONS:

Production Separators Reservoir Assessment Well Performance **Testing Extraction Processes Mudflow** Measurement Water & **Chemical Injections**

Frac Blending Trucks Hydraulic **Fracturing Water** Quality and more...

Our flow, level, pressure, and temperature instrumentation has been specifically curated to reach across many industries. Water measurement being no exception.

For more information, please visit Pem-Controls.com or contact us at sales@pem-controls.com

We understand you have a choice where you send your business.

When you choose Pembina Controls and our manufacturing partners, our goal is to ensure you are so impressed with our products and service, that you are confident in recommending us to your colleagues, clients, and friends.

DISTRIBUTION CENTRE, ORDER DESK & CUSTOMER SERVICE
